knowledge ... school;
learning opens the door to the realization of life,
the understanding of existance and the ability to survive.

a room housing the discovery of wisdom has one door that
allows entrance, a door that is opened one way, by the realization
of knowledge and the desire to learn, to explore the room of wisdom.

and understanding. I'm not just saying all this I hope you know I mean all of what I write. I hope we'll see each other often during the summer & when we go on vacations we'll write. We have gone through some hard times but it just made our friendship stronger I hope. I wish that we will always be able to talk, I mean really talk — not small talk. Well for not knowing what to write I think I did pretty good. Hope you can read this it sure is a mess. Stay as fantastic as you are and I hope all your dreams come true.

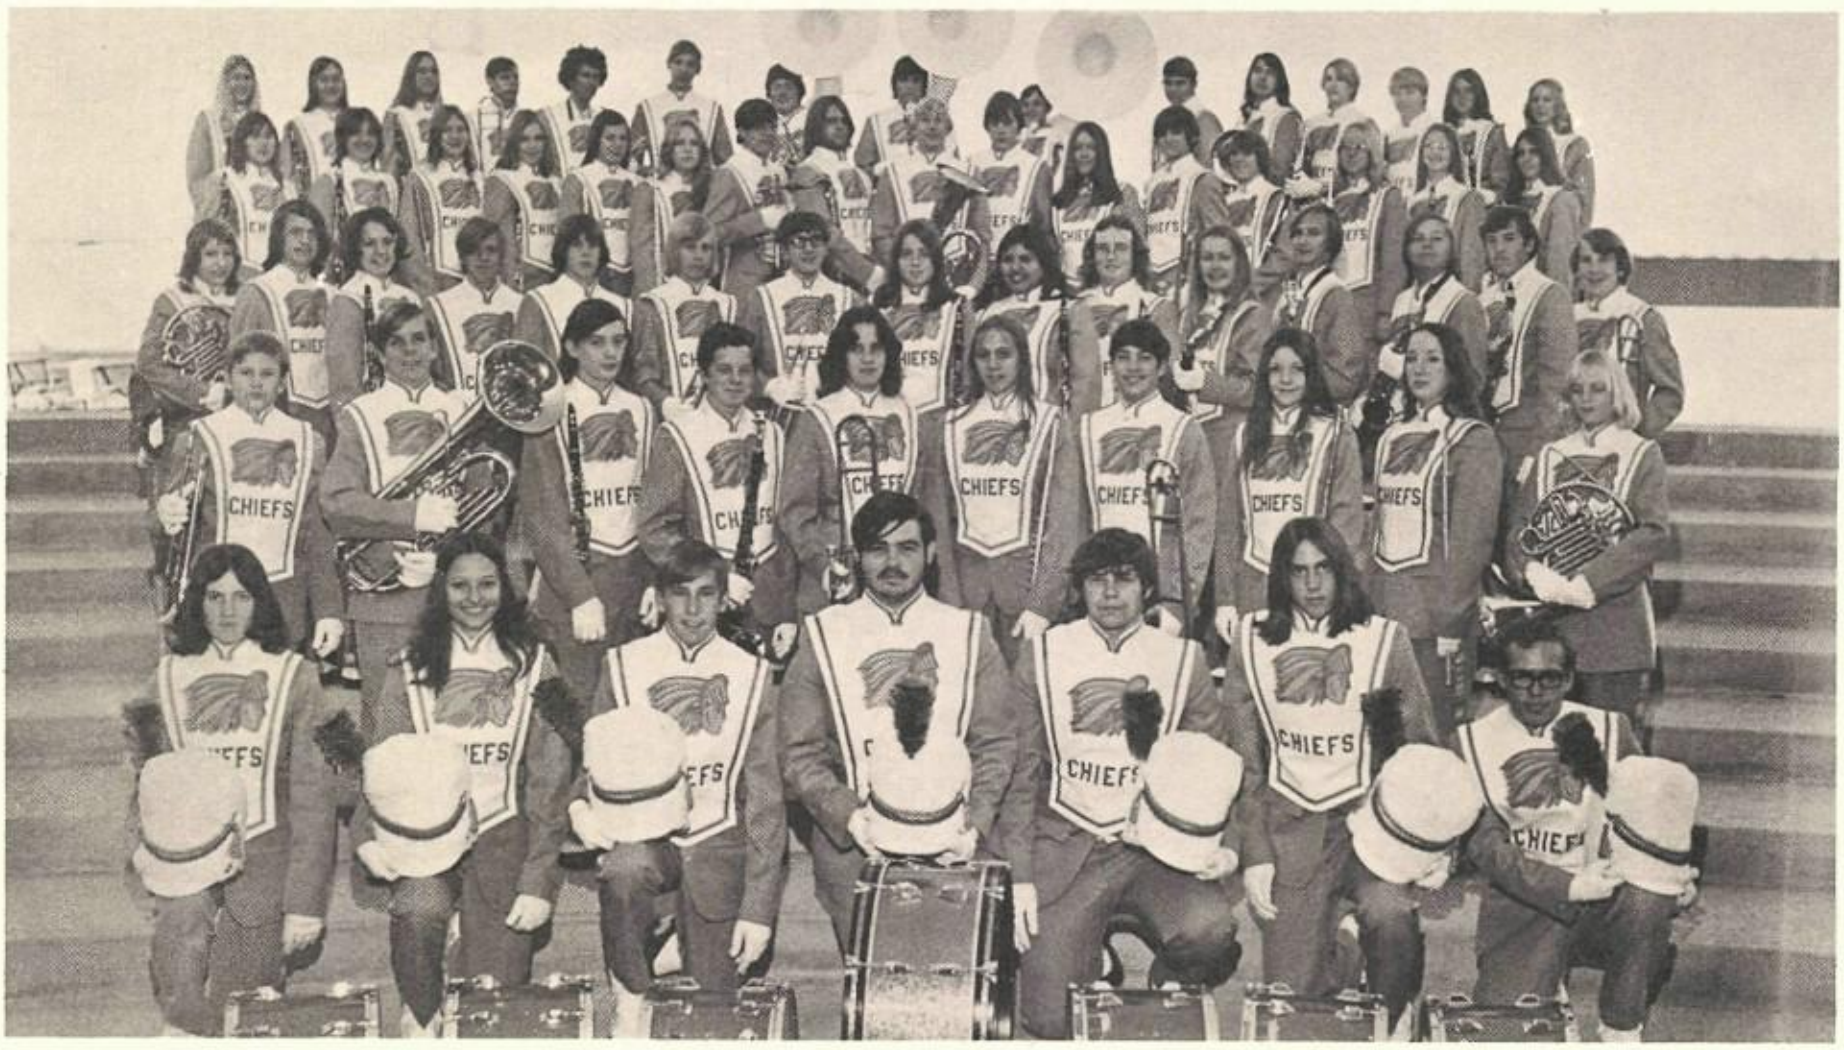
Band uniforms arrive for last game



ADVANCED BAND

Although it was hard to believe, the new band uniforms arrived in time for the final football game performance of the Thunderbird Marching Chiefs. This began a successful marching season and also ended the early morning rehearsals for the band. The remainder of the school year was spent preparing for concerts, festivals, and parades, as well as sponsoring the "Thunderbird Review" an all-school talent show, and the April school dance. During the final concert in May, awards were presented to those students that had earned enough points to qualify for the awards and scholarships, which were given to outstanding bandsmen to attend summer music camps.

War Chant staff adopts smaller half-tab format

This year the newspaper staff voted unanimously for the smaller half-tab format, so eight students could be page editors of The War Chant. The staff put out additional issues this year, and hopes to add even more in the following year. The photographers worked hard to learn the processes of shooting pictures and developing prints. They spent time after school working on photography for the yearbook and newspaper.

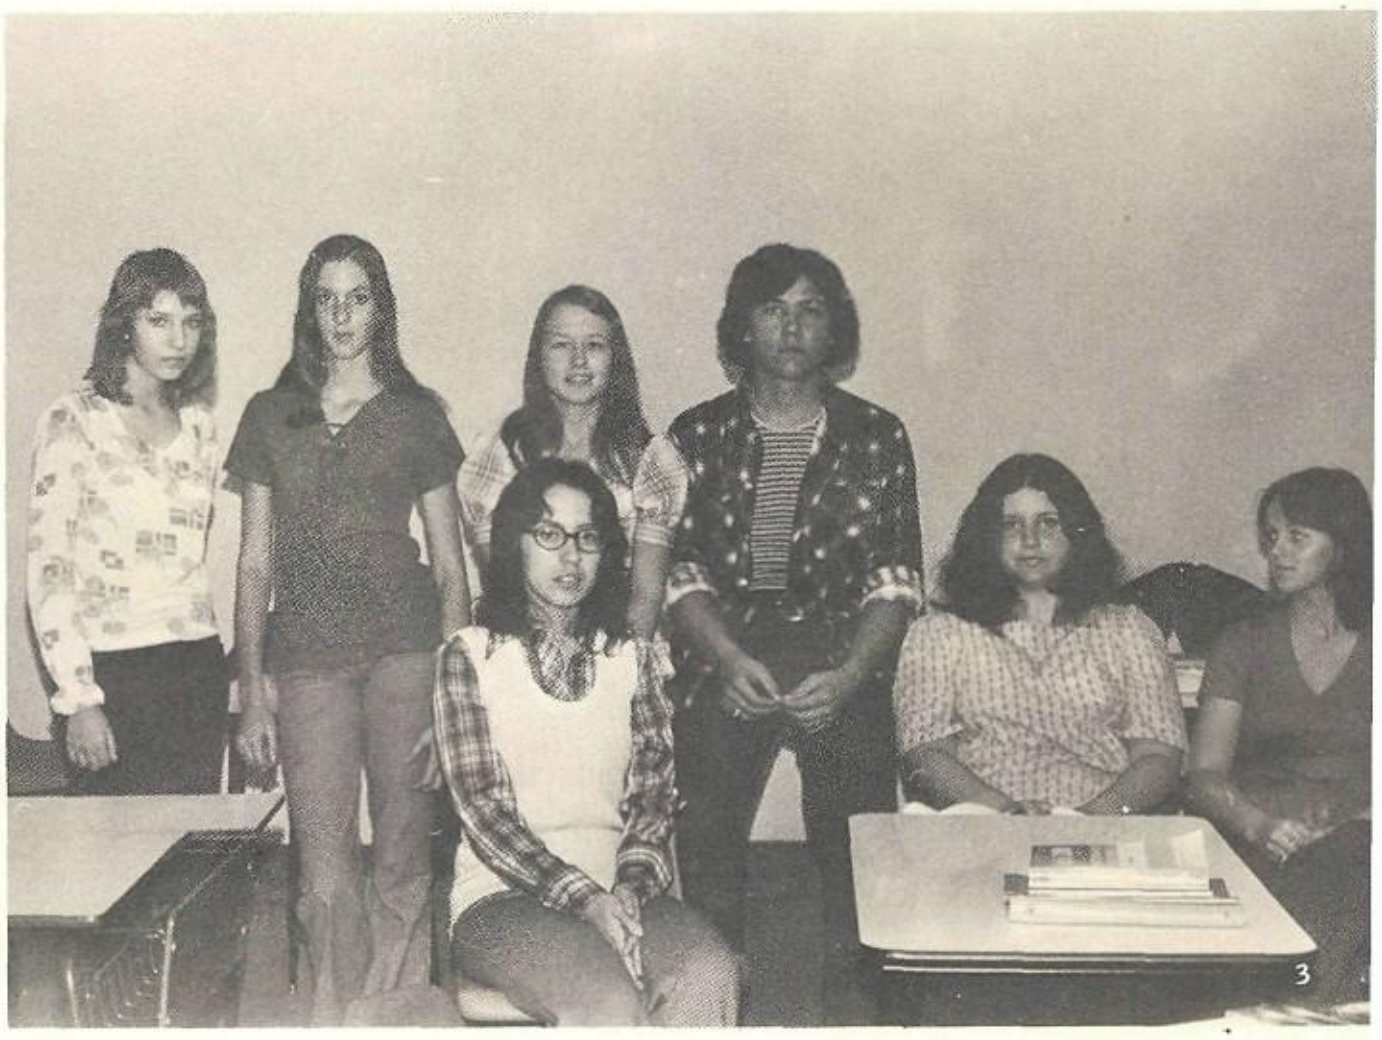
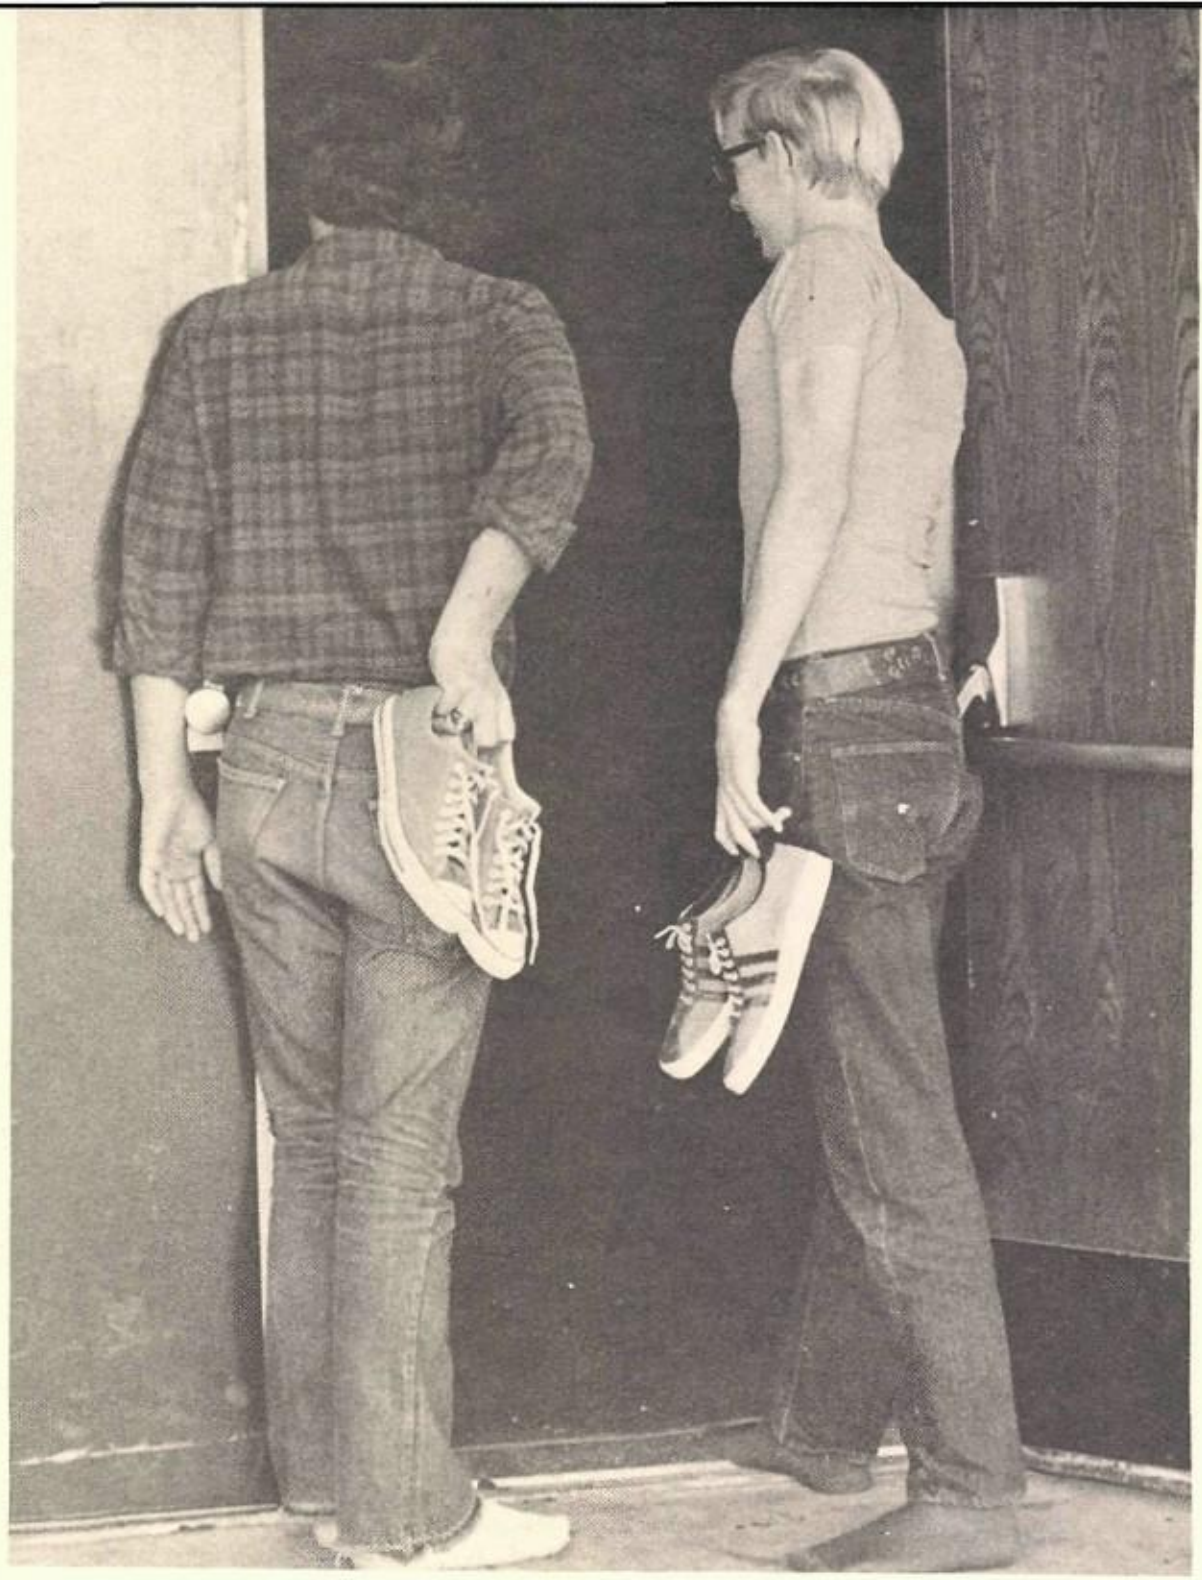
Yearbook staff works after school, Saturdays



The Warrior Staff worked hundreds of hours to meet the deadlines set by the yearbook company in California. The staff welcomed new members this year but found that in spite of their help, new organization of the book and increased number of pages, meant more work for staffers after school and on weekends.



They stand, tennis shoes in hand. They know that behind this open door lies a chance to be a high school hero, professional athelete, a college scholarship, or just a bench warmer. They know what ever lies ahead, participating in high school sports has changed their lives.

The Varsity Chiefs had a good season with a 6-win 3-loss record. Thunderbird is a young school with new members and a new teaching staff who have just met. The coaching staff new to the members of the team and new to each other, have done an outstanding job of combining their strategy to put forth a truly fine team. It takes great dedication and love of the sport for a young team to work so well together. With the dedication and pride this young team has, next year may prove to be a truly great and winning season.

The Junior Varsity football team started the season with a victory over Coconino beating them 19-0. After a hard week of practice the J.V. Chiefs were ready to scalp Apollo, but things fell short and the Chiefs fell short, in fact, they fell short the next two games in a row. The J.V. Chiefs had a strong defense, but the offense was a little weak. After some hard work, a few changes, and rearranging, the J.V. Chiefs were ready to act, and act they did, by taking the next four games in a row.

The Frosh "A" team opened the season with a victory over Alhambra, beating them 12 to 6. The Frosh hit a losing streak, not winning until mid season. One of the Frosh coaches said there was a lot of talent, but too much individualism, that could hurt even the greatest of teams. The Frosh brought their record to 3-win 6-losses by beating Washington 2 to 0.

The Frosh "B" Chiefs had a rough season with a 1-7 record. The greatest problem was the lack of experience, some of the players have never played tackle football, but others may have been playing Pop Warner for a good number of years. Despite the losing season the Frosh "B" played with just as much pride and determination as the Varsity Chiefs, with the experience of this year and a little hard work for next year the Frosh, who will be J.V., may have a winning, and great season.

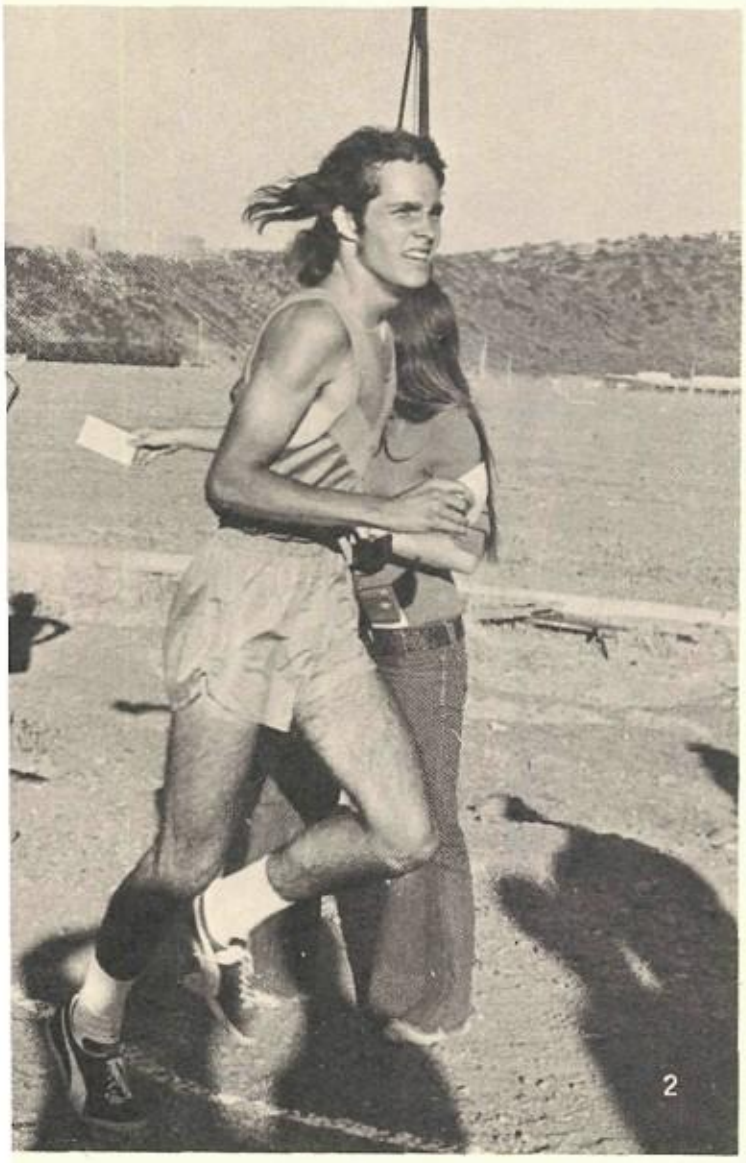
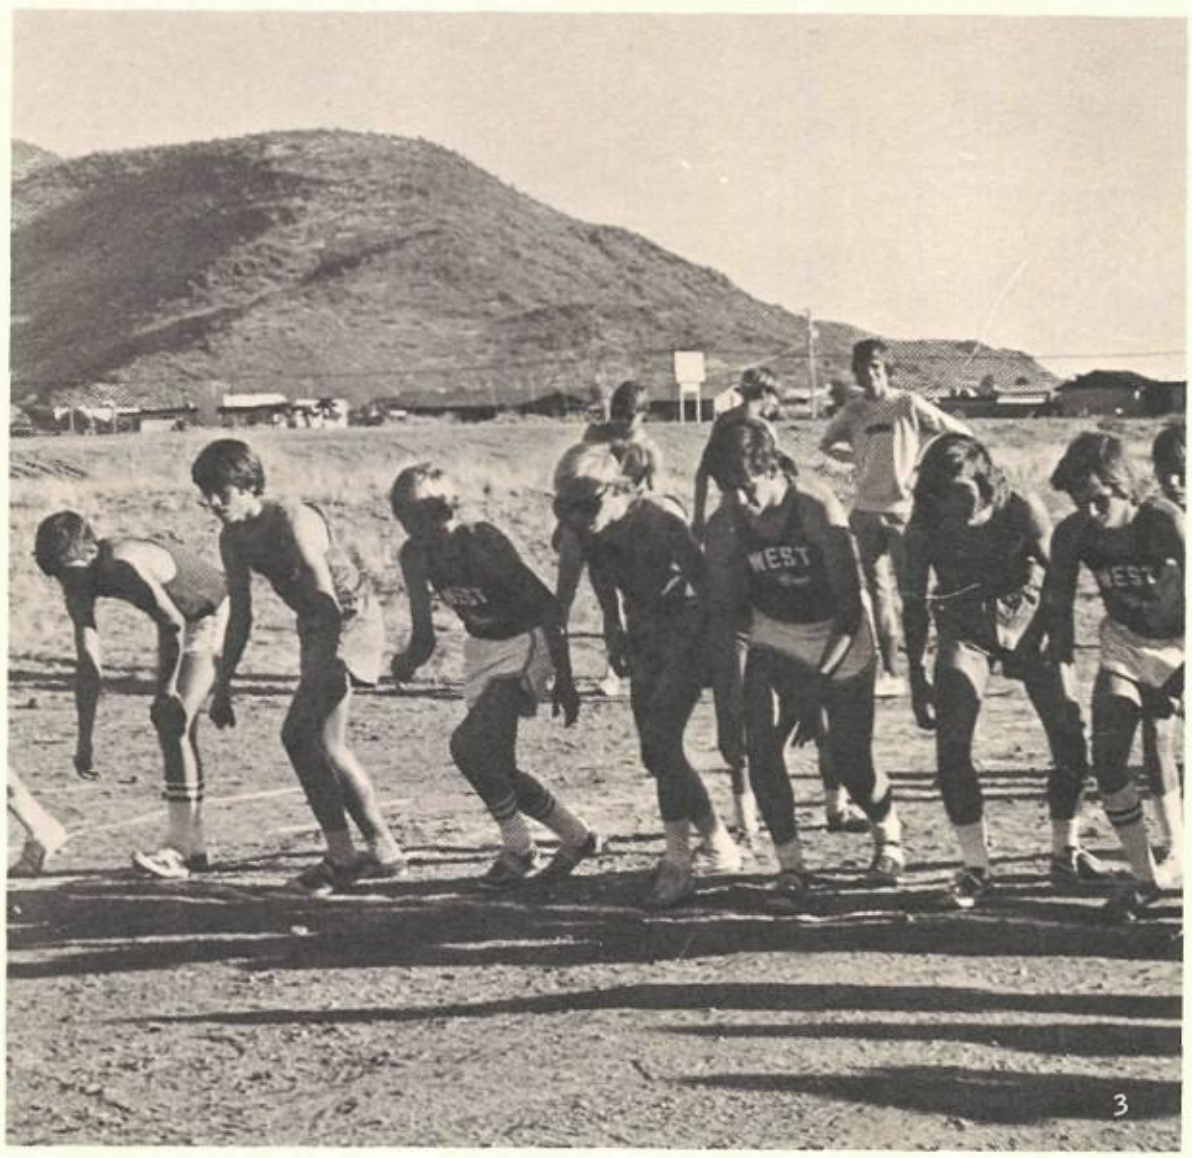
Cross Country team wins 7 out of 9





It takes a lot of guts and endurance to run Cross Country. That describes our Varsity Cross Country team to a "T". It's a rough sport demanding hard work, like running five miles a day, but the Cross Country team doesn't think of it as just hard work. The Cross Country team represents our school just as the football or basketball team, but they don't get the same support. But, more people are becoming more aware of Cross Country each year.

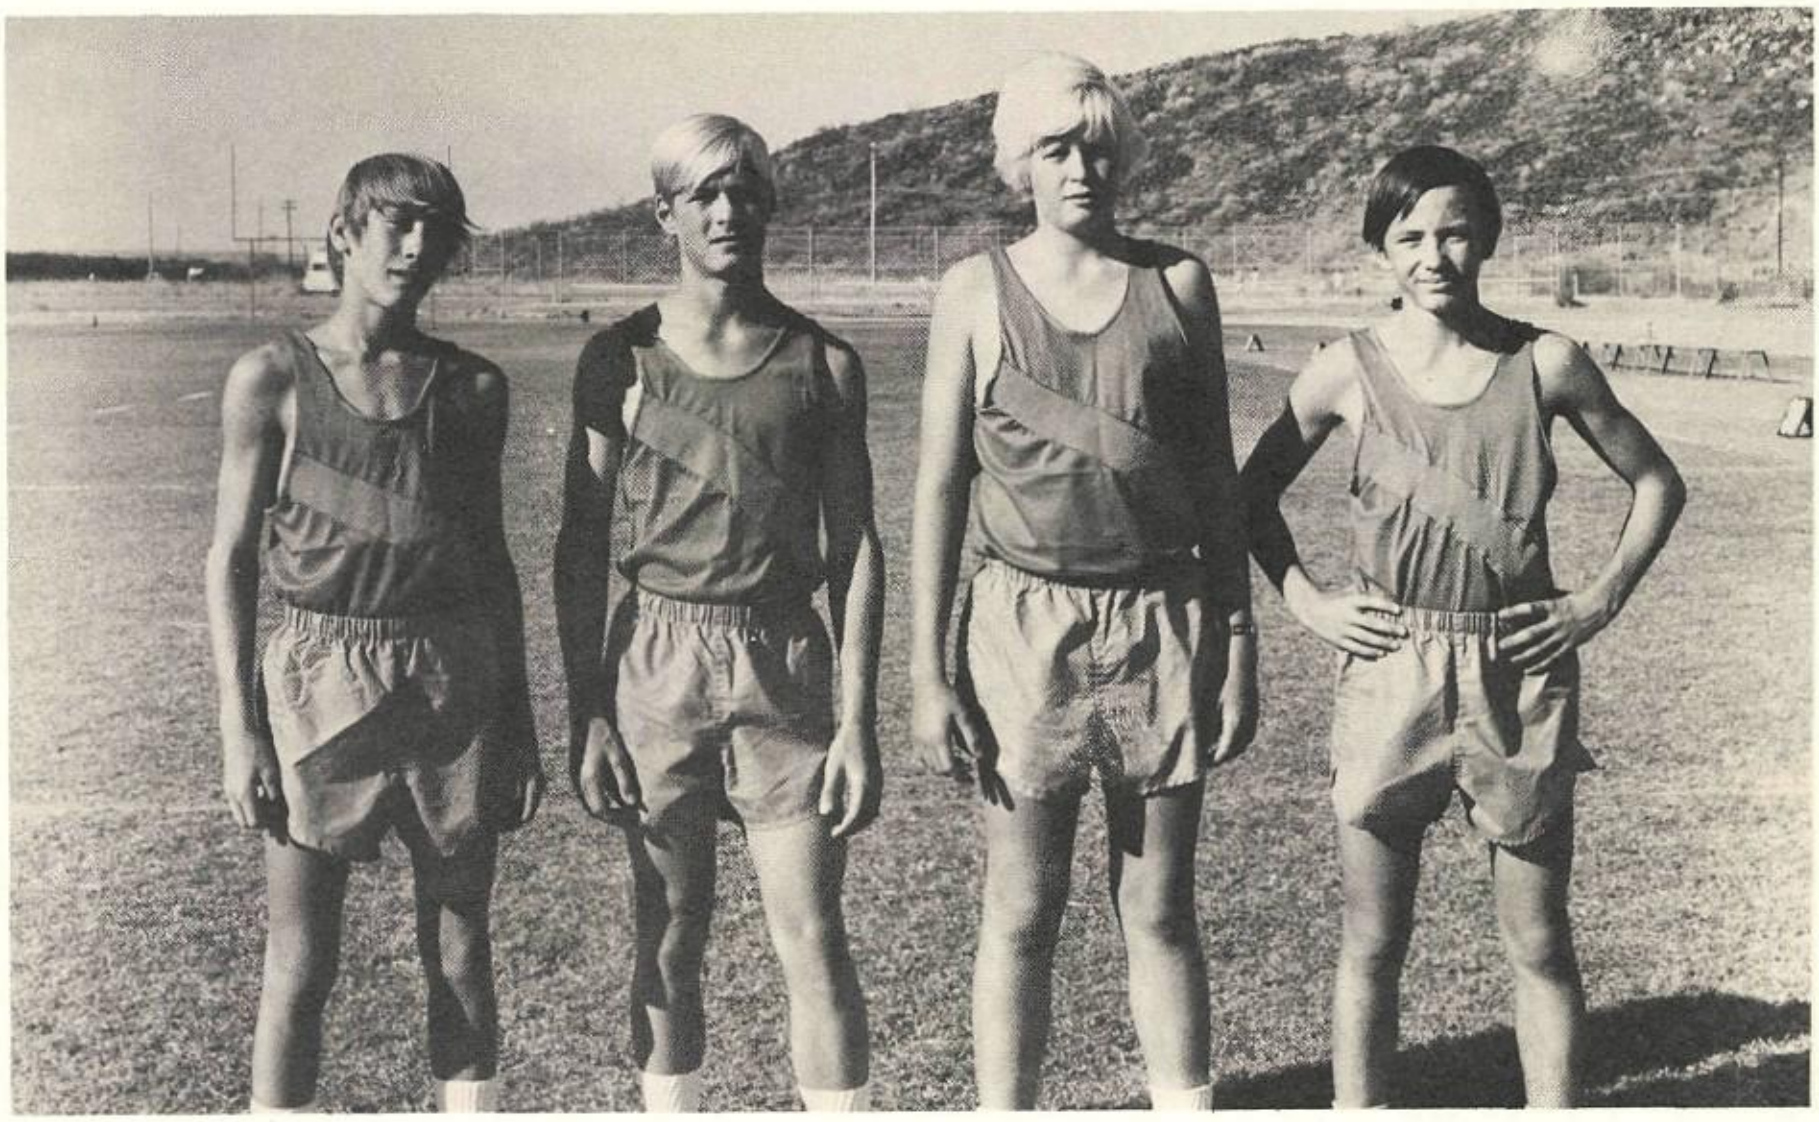
JV runners help varsity achieve victory points

The Junior Varsity Cross Country team is a hard working group of young men. They go all out in their meets not just for a first place but for a team score and a team victory. They are dedicated and proud of the team, not just themselves. These are the future Varsity runners, some will make a life time career, or for some this will be the last chance to run Cross Country. Whether it is or is not these men will benefit from this experience.

Junior Varsity Cross Country: Row 1 Chip Zeeb, George Seff, Dan Walker. Row 2 Mike Pratt, Tom Parkinson, Walter Riordan, and Rich Ivanisko.

Freshman harriers build strength



Freshman Cross Country: Row 1 Lane Darling, Paul Callow, Brad Maver and Randy Jordan.

Although our Frosh Cross Country team is small, they play an important part in Thunderbird's athletics. These young men are full of pride and strength. Cross Country is a demanding sport, but not too tough for these men, they come out each day and work very hard. They don't get a big reward, but they get satisfaction in knowing they have helped their school in it's progress as a new school.

This year was one of growth and change for Thunderbird High School. For the first time, students attended classes on the new campus for the entire year.

A new class level was added so that in one more year Thunderbird will be a full four-year school.

Thirty-five new courses, 21 new teachers, two new counselors, and a new media center coordinator added more new faces to the growing school.

New traditions began. Since no graduates can come home to a new school, Thunderbird substituted Pow Wow Week for a homecoming celebration. Highlights of the week included the first royalty crowned at THS and the first annual chariot judging and race.

Memorable activities of the year included old fashioned day, the all-school talent show, the assemblies ranging from the Army Sports Clinic to the first awards assembly and concerts by Spirit and First Gear.

We added two special dances to our calendar this year. In February we crowned our first sweetheart, then we danced far into the night at our first prom in May. Our first varsity athletes competed in the Skyline Division and fared well enough. We added two girl's sports teams and they, too, enjoyed competition.

All in all this year of additions and changes was an exciting one for THS. Each and every change meant new avenues for expression, more opportunities for growth and more open doors.

We, of the Warrior staff, have tried to recapture the excitement of this year. We hope this yearbook will remind you of all the doors that opened for you during your high school years.
